

BRACKETT *CoverMax*

A Unique System for Attaching Covers to Pads:

Scores ~ Glues ~ Wraps ~ Delivers

CoverMax is an automated system designed to eliminate several labor-intensive bindery operations. This one, compact, four station, machine *scores* the cover, *applies* hot-melt glue, *wraps* the cover squarely around the pad and *delivers* the finished pad to the device or container of your choosing. Be sure to take a look at our online videos to see *CoverMax* in action !!

Time equals money & *CoverMax* can save you an *astonishing* amount of both.

In the *race* to provide quality covered pads to your customers:

***BRACKETT CoverMax* truly SCORES and DELIVERS! !**

Contact our sales team & find out what *CoverMax* can do for YOUR bottom line.
